

PT PHYTO LABS INDONESIA

COMPANY OVERVIEW

PT Phyto Labs Indonesia is a reputable Indonesian manufacturer and exporter specializing in high-quality **Kratom (Mitragyna Speciosa)** products. Based in Jakarta, Indonesia, we focus on delivering safe, traceable, and consistently pure **Kratom** materials for global partners in the herbal, wellness, and nutraceutical sectors.

We collaborate closely with **BRIN (Badan Riset dan Inovasi Nasional – National Research and Innovation Agency of Indonesia)** to ensure compliance with the highest quality standards, scientific testing protocols, and continued product innovation.

QUALITY CONTROL

In collaboration with **BRIN**, we follow strict research-backed standards:

- Full-spectrum laboratory testing
- Good Manufacturing Practice (GMP) processing
- Extensive and Persistence Quality Control

CERTIFICATIONS

- COA (Certificate of Analysis)
- Batch test reports
- Product Specification Sheets

COMPETITIVE ADVANTAGES

- **BRIN** research cooperation for science-backed quality
- Reliable and consistent product standardization
- Competitive pricing and scalable supply
- Branding support and private label services
- Experienced export operations team
